

Guest Call System

The advantages of VeDoSign - Coasters are clear - clients and staff are not disturbed by unnecessary noise (such as loudspeaker announcements). Both hearing impaired and partially sighted persons can use the system, since the receiver unit can blink, beep and/or vibrate. Customers can comfortably use their waiting time for something else (no stress/no rush), because it is not necessary for them to concentrate on the calling of numbers or orders!

VeDoSign Guest Call System

Benefits to you

- No queues
- Less workload
- Ensures guests' circulation
- No loud number calling
- Better image
- Higher revenues
- It is quiet
- The product range can be expanded.

Say goodbye to old habits and take advantage of the new benefits (both for customers and employees).

- The future of customer communications for cafés/takeaways/ self-service restaurants/furniture stores.
- Undisturbed and accurate communication with your guests - no scratchy loudspeaker announcements (it creates a new and pleasant acoustic in the room)
- No misunderstandings: "Who has ordered what?"
- Beep, blink and vibrations overcome language barriers
- The staff will no longer need to look for guests (personnel saving!)
- Effective, provides a quiet and pleasant atmosphere (less stress for customers and staff)
- Customers are not, as in number calling, standing in line

It's that easy:

Guest Call System consists of an electronic receiver unit, which can both beep and blink or if desired, vibrate and at the same time works as an ordinary ticket.

When the customer has ordered and paid for his meal, he takes the receiver unit with him to his table. When the meal is ready the staff can activate the receiver unit via the terminal, then the receiver unit will beep in a subtle way, blink and/or vibrate to show the customer that the order is ready for pick-up.

Many advantages:

Guest Call System offers many advantages - clients and staff are not disturbed by unnecessary noise (no need to stand in line/optimal cooperation between clients and kitchen is ensured).

The customer can relax at the table, until

the meal is ready to be served. Customers can comfortably wait for their order/meal (no need to be aware of number calling).

Guest Call System

Calling system for guests and customers

That means more beverage sales and a pleasant visit to the café/restaurant, because the beeps and the blinks are perceived as "language without borders".

An important selling argument:

Quiet and relaxation is something good in these stressed days we live in. Guests enjoy takeaways/ restaurants that use VeDoSign Guest Call System, as a quiet oasis. The meal quality and the use of VeDoSign Guest Call System are the best selling arguments compared to those of the closest competition.

Easy installation:

GCS is a plug and play device. No long instructions, but fast and effective functions that ensure a smooth operation.

How many receiver units?

The investment in VeDoSign Guest Call System depends on the restaurant's size and structure (outdoor tables, basement, or several floors, etc.).

We will adapt the system according to your wishes, based on your customer flow; the system is tailored to suit your café, restaurant, or takeaway needs.

Buy or rent:

We would like to offer financing for your purchase, that way your investment can be divided into an agreed-upon number of months. The system can also be rented for a three year period. If desired, purchasing is an option.

You have the option to measure waiting times.

ADVERTISE ON THE RECEIVER UNIT

You can also use the receiver unit as advertising space for your own products or your supplier's products. This will enable you to finance your investment, which will eventually turn into an additional profit, and on the other hand it may lead to a closer bond with your suppliers. We handle the practical issues of the advert on the receiver unit.
